

## J. M. Brown Publications (February 2020)

1. Brown, J. M., and R. G. McQueen (1980) Melting of iron under core conditions, *Geophys. Res. Lett.*, 7, 533-536.
2. Brown, J. M., and T. J. Shankland (1981) Thermodynamic parameters in the earth as determined from seismic profiles, *Geophys. J. Roy. Astron. Soc.*, 66, 579-596.
3. Brown, J. M., and R. G. McQueen (1982) The equation of state for iron and the earth's core, in *High Pressure Research in Geophysics*, edited by S. Akimoto and M. Manghani, 611-623.
4. Shaner, J. W., J. M. Brown, and R. G. McQueen (1984) Melting of metals above 100 GPa, in *High Pressure in Science and Technology*, 22, III, North Holland, New York, edited by C. Homan, R. K. MacCrone and E. Whalley, 137-141.
5. Brown, J. M. and J. W. Shaner (1984) Rarefaction velocities in shocked tantalum and the high pressure melting point, in *Shock Waves in Condensed Matter*, edited by J. R. Asay, R. A. Graham, and G. K. Straub, North Holland, New York, 91-94.
6. Brown, J. M., T. J. Ahrens, and D. L. Shampine (1984) Hugoniot data for pyrrhotite and the Earth's core, *J. Geophys. Res.*, 89, 6041-6048.
7. Shaner, J. W., J. M. Brown, C. A. Swenson, and R. G. McQueen (1984) Sound velocity of carbon at high pressures, *J. Phys.*, C8, 235-237.
8. Shankland, T. J. and J. M. Brown (1985) Homogeneity and temperatures in the lower mantle, *Phys. Earth Planet. Int.*, 38, 51-58.
9. Brown, J. M., C. A. Swenson, and J. W. Shaner (1985) Shock determination of the Grüneisen parameter for lanthanum and the 6s-5d transition, *Physical Review B.*, 32, 4507-4512.
10. Boness, D. A., J. M. Brown, and A. K. McMahan (1986) The electronic thermodynamics of iron under Earth core conditions, *Phys. Earth Planet. Int.*, 42, 227-240.
11. Brown, J. M. (1986) Interpretation of the D" zone at the base of the mantle: dependence on assumed values of thermal conductivity, *Geophys. Res. Lett.*, 13, 1509-1512.
12. Brown, J. M., and R. G. McQueen (1986) Phase transitions, Grüneisen parameter, and elasticity for shocked iron between 77 GPa and 400 GPa, *J. Geophys. Res.*, 91, 7485-7494.
13. Furnish, M. D., D. Grady, and J. M. Brown (1986) Analysis of shock wave structure in single-crystal olivine using VISAR, In *Shock Waves in Condensed Matter*, edited by Y. Gupta, 595-600, Plenum, New York.
14. Furnish, M. D., and J. M. Brown (1986) Shock loading of single crystal olivine in the 100-200 GPa Regime, *J. Geophys. Res.*, 91, 4723-4729.
15. Swenson, C. A., J. W. Shaner, and J. M. Brown (1986) Hugoniot overtake sound-velocity measurements on CsI, *Phys. Rev. B.*, 7924-7935.
16. Brown, J. M., M. D. Furnish, and R. G. McQueen (1987) Thermodynamics for  $(\text{Mg, Fe})_2\text{SiO}_4$  from the Hugoniot, in *High Pressure Research in Mineral Physics*, edited by M. H. Manghnani and Y. Syono, 373-384.
17. Shaner, J. W., R. S. Hixson, M. A. Winkler, and J. M. Brown (1987) Acoustic velocity measurements on fluid metals from two-fold compressions to two-fold expansions, in *Strongly Coupled Plasma Physics*, edited by F. J. Rogers and H. E. Dewitt, NATO ASI Series, 154, Plenum Press, New York, 395-406.
18. Boness, D. A., J. M. Brown, and J. W. Shaner (1988) Rarefaction velocities in shocked lead, in *Shocked Waves in Condensed Matter*, edited by S. C. Schmidt and N. C. Holmes, Elsevier Science Publishers, 115-188.
19. Brown, J. M., M. D. Furnish, and D. A. Boness (1988) Sound Velocities for San Carlos Olivine, in *Shock Waves in Condensed Matter*, edited by S. C. Schmidt and N. C. Holmes, 119-122.
20. Shaner, J. W., R. S. Hixson, M. A. Winkler, D. A. Boness, and J. M. Brown (1988) Birch's Law for fluid metals, in *Shock Waves in Condensed Matter 1987*, edited by S. C. Schmidt and N. C. Holmes, Elsevier Science Publishers, 135-138.
21. Brown, J. M., L. J. Slutsky, K. A. Nelson, and L-T. Cheng (1988) Velocity of sound and equation of state for methanol and ethanol to 6.8 GPa in a diamond anvil cell: An application of impulsive stimulated scattering, *Science*, 241, 65-67.
22. Brown, J. M., L. J. Slutsky, K.A. Nelson, and L-T. Cheng (1989) Single crystal elastic constants for San Carlos Peridot: An application of impulsive stimulated scattering, *J. Geophys. Res.*, 94, 9485-9492.

23. Huffman, A. R., J. M. Brown, N. L. Carter (1989) Temperature dependence of shock-induced microstructure in tectosilicates, in *Shock Compression of Condensed Matter*, edited by S.C. Schmidt, J.N. Johnson, and L.W. Davison, Elsevier Science Publishers, 649-656.
24. Boness, D. A., and J. M. Brown (1989) Equation of state of liquid alkali halides at high pressure, in *Shock Compression of Condensed Matter*, edited by S.C. Schmidt, J.N. Johnson, and L.W. Davison, Elsevier Science Publishers, 863-866.
25. Slutsky, L. J., J. M. Brown, K. A. Nelson, and L-T. Cheng (1990) Velocity of Sound and Equation of State at Very High pressures Determined by Impulsive Stimulated Scattering, *Proc. IEEE, Ultrasonics Symp.*, 451-454.
26. Qi, B., J.M. Brown, and Y. Sato-Sorensen (1990) Calibration of Sm:YAG as a high pressure and high temperature fluorescence standard, *J. Appl. Phys.*, 68, 5357-5359.
27. Boness, D. A. and J. M. Brown (1991) The electronic band structure of iron, sulfur, and oxygen, *J. Geophys. Res.*, 95, 21,721-21,730.
28. Choe, I., R. Ingalls, J. M. Brown, Y. Sato-Sorensen, and R. Mills (1991) Mössbauer studies of iron hydride at high pressure, *Phys. Rev. B*, 44, 1-4.
29. Boness, D. A. and J. M. Brown (1991) Melting along the Hugoniot of KBr and CsBr: Optical pyrometry -- Rarefaction overtake experiments, in *Shock Compression of Condensed Matter*, edited by S. Schmidt, R. Dick, J. Forbes, and D. Tasker, 187-190.
30. Zaug, J., E. Abramson, J. M. Brown, and L. J. Slutsky (1992) Elastic constants, equations of state, and thermal diffusivity at high pressure, in *High-Pressure Research: Application to Earth and Planetary Sciences*, edited by Y. Syono, and M. Manghanani, 157-166, American Geophysical Union, Washington D.C.
31. Choe, I., R. Ingalls, B. Qi, J. M. Brown, and Y. Sato-Sorensen (1992) Mössbauer study of iron silicate spinel at high pressure, *Phys. Chem Min.*, 19, 236-239.
32. Zaug, J., E. Abramson, J. M. Brown, and L. J. Slutsky (1993) Sound velocities for olivine under mantle conditions of pressure, *Science*, 260, 1487-1489
33. Boness, D. A., and J. M. Brown (1993) Shock induced superheating of KBr and CsBr, *Phys. Rev. Lett.*, 71, 2931-2934.
34. Huffman, A. R., J. M. Brown, N. L. Carter, and W. U. Reimold (1993) The micromechanical response of quartz and feldspar under shock loading at variable temperatures, *J. Geophys. Res.* 98, 22,171-22,197.
35. Brown, J. M., Perspectives: Mantle melting at high pressure, *Science*, 262, 529-530, 1993
36. Abramson, E.H., L. J. Slutsky, and J. M. Brown (1994) Elastic constants, interatomic forces and equation of state of  $\beta$ -oxygen at high pressure, *J. Chem. Phys.*, 100, 4518-4526.
37. Zaug, J. M., L. J. Slutsky, and J. M. Brown (1994) Equilibrium properties and structural relaxation in methanol to 30.4 GPa, *J. Phys. Chem*, 98, 6008-6016.
38. Brown, J.M, L.J. Slutsky, E. Abramson, and J. Zaug (1994) Sound velocities, elastic constants, thermal diffusivity, and structural relaxation at high pressure, in *High-Pressure Science and Technology 1993*, edited by S.C. Schmidt, J. W. Shaner, G.A. Samara, and M. Ross, Conference Proceedings 309, American Institute of Physics, New York, 35-38.
39. Abramson, E. H., L. J. Slutsky, and J. M. Brown (1996) The thermal diffusivity tensor and lattice dynamics of  $\beta$ -oxygen at high pressure, *J. Chem Phys.* 104, 5424
40. Boness, D.A., and J.M. Brown, Heat capacity of shocked alkali halides, in *Shock Compression of Condensed matter-1995*, edited by S.C. Schmidt and W. C. Tao, American Institute of Physics, New York, 85-88, 1996.
41. Chai, M., J. M. Brown, and L. J. Slutsky (1996) Thermal diffusivity of mantle minerals, *Phys. Chem. Min.*, 23, 470-475.
42. Chai, M. and J. M. Brown (1997) Effects of static non-hydrostatic stress on the R lines of ruby single crystals, *Geophys. Res. Lett.*, 23, 3539-3542.
43. Chai, M., J. M. Brown, and L. J. Slutsky (1997) The elastic constants of a pyrope-grossular-almandine garnet to 20 GPa, *Geophys. Res. Lett.*, 24, 523-526
44. Abramson, E. H., J. M. Brown, L. J. Slutsky, and J. Zaug (1997) The elastic constants of San Carlos olivine to 17 GPa, *J. Geophys. Res.*, 102, 12,253-12,263.
45. Hearn, E. G. Humphreys, M. Chai, and J. M. Brown (1997) Effect of anisotropy on oceanic upper mantle temperatures, structure, and dynamics, *J. Geophys. Res.*, 102, 11,943-11,956

46. Chai, M., J. M. Brown, and L. J. Slutsky (1997) The elastic constants of an aluminous orthopyroxene to 12.5 GPa, *J. Geophys. Res.*, 102, 14,779-14,785.
47. Chai, M., J. M. Brown and Y. Wang (1998) Yield strength, slip systems and deformation induced phase transition of San Carlos olivine up to transition zone pressure at room temperature, in *Properties of Earth and Planetary Materials at High Pressure and Temperature*, ed. by M.H. Manghnani and T. Yagi, American Geophysical Union, 483-494.
48. Baer, B., J. M. Brown, J. M. Zaug, D. Schiferl, and E. L. Chronister (1998) Impulsive stimulated scattering in ice VI and ice VII, *J. Chem. Phys.*, 108, 4540-4544.
49. Collins, M. C., and J. M. Brown (1998) Elasticity of an upper mantle clinopyroxene, *Phys. Chem. Min.*, 26, 7-13.
50. Wiryana, S., L. J. Slutsky, and J. M. Brown (1998) The equation of state of water to 200°C and 3.5 GPa: Model potentials and the experimental pressure scale, *Earth Planet. Sci. Lett.*, 163, 123-130, 1998
51. Stixrude, L. and J. M. Brown (1998) The earth's core, in *Ultrahigh-Pressure Mineralogy: Physics and Chemistry of the Earth's Deep Interior*, edited by R. J. Hemley, Mineralogical Society of America, Washington DC, 261-280.
52. Abramson, E.H., L.J. Slutsky, M.D. Harrell, and J.M. Brown (1999) Speed of sound and equation of state for fluid oxygen to 10 GPa, *J. Chem. Phys.*, 110 (21), 10493-7.
53. Abramson, E.H., J.M. Brown, and L.J. Slutsky (1999) Applications of impulsive stimulated scattering in the earth and planetary sciences, *Ann. Rev. Phys. Chem.*, 50, 279-313
54. Brown, J.M. (1999) The NaCl pressure standard, *J. Appl. Phys.*, 86 (10), 5801-8
55. Abramson, E.H., L.J. Slutsky, and J.M. Brown (1999) Thermal diffusivity of fluid oxygen to 12 GPa and 300 degrees C, *J. Chem. Phys.*, 111 (20), 9357-60
56. Brown, J.M., J.N. Fritz, and R.S. Hixson (2000) Hugoniot data for iron, *J. Appl. Phys.*, 88 (9), 5496-8
57. Zaug, J.M., E.H. Abramson, J.M. Brown, L.J. Slutsky, C.M. Aracne-Ruddle, and D.W. Hansen (2000) A Study of the Elasticity of Ta at High Temperature and Pressure, in "Science and Technology of High Pressure," edited by M.H. Manghnani, W.J. Nellis, and M.F. Nicol, pp. 804-6, Universities Press, Hyderabad, India
58. Abramson, E.H., J.M. Brown, and L.J. Slutsky (2000) Speed of Sound and Thermal Diffusivity in Fluid Oxygen to 12 GPa, in "Science and Technology of High Pressure," edited by M.H. Manghnani, W.J. Nellis, and M.F. Nicol, pp. 807-9, Universities Press, Hyderabad, India
59. Boness, D.A., J. M. Brown, M. Morgan, J. Madamba (2000) Disagreement between shock and static temperature data: Calculation of argon optical transmittance in laser-heated diamond anvil cells, in *Shock Compression of Condensed matter -1999*, edited by , p 173-6, AIP Conference Proceedings, 505
60. Crowhurst, J.C., E.H. Abramson, L.J. Slutsky, J.M. Brown, J.M. Zaug, and M.D. Harrell (2001) Surface acoustic waves in the diamond anvil cell: An application of impulsive stimulated light scattering, *Phys. Rev. B*, 64, 100103-6
61. Abramson, E.H., J.M. Brown, L.J. Slutsky, S. Wiryana (2001) Measuring speed of sound and thermal diffusivity in the diamond-anvil cell, *International J. Thermophys.* 22, 405-414
