Curriculum Vitae

Gerard H. Roe Professor, Dept. of Earth and Space Sciences, University of Washington, Seattle, WA.

ADDRESS

3922 Greenwood Ave N Seattle, WA 98103 phone: (206) 697-3298 e-mail: gerard@ess.washington.edu

EDUCATION

Massachusetts Institute of Technology, Cambridge, MA Ph.D. in Atmospheric Science, June 1999. Dissertation under Prof. Richard Lindzen: "The mutual interaction between the great continental ice sheets and atmospheric stationary waves".

Oriel College, University of Oxford, Oxford, UK Bachelor of Arts degree in Physics. First Class Honors, June 1992.

PROFESSIONAL EXPERIENCE

September 2012 to present: Full Professor, September 2007 to 2012: Associate Professor, January 2003 to 2007: Assistant Professor University of Washington, Department of Earth and Space Sciences, Adjunct Associate Professor, Dept. of Atmospheric Sciences

September 1999 to December, 2002: Postdoctoral Researcher, Seattle, WA University of Washington, Quaternary Research Center/Joint Institute for The Study of the Atmosphere and Ocean.

September 1993 – March 1999: Graduate Research Assistant, Cambridge, MA March 1999 – July 1999: Post-doctoral Associate, Massachusetts Institute of Technology, Program in Atmospheres, Oceans, and Climate.

GRANTS

Old:

NSF 6312293 DIVISION OF EARTH SCIENCES, CONTINENTAL DYNAMICS PROGRAM July'05 to June'10, \$270,125 (U. Wash. portion). Upward and Outward: Tibetan Plateau growth and climatic consequences. Gerard Roe (UW Pls).

NSF 0409884 DIVISION OF EARTH SCIENCES, CONTINENTAL DYNAMICS PROGRAM Aug'04 to Jul'010 \$408,616 (U. Wash. portion). Collaborative research: St. Elias Erosion/tectonics Project (STEEP) Bernard Hallet, Gerard H Roe (UW PIs). NSF 0314710. DIVISION OF ATMOSPHERIC SCIENCES, CLIMATE DYNAMICS PROGRAM Sep'03 to Aug'05, \$249,521. Understanding the role of rain-on-snow events in high latitude climates: soil temperatures and ecosystems. Jaakko Putkonen, Cecilia Bitz, Gerard Roe (PIs).

NSF DIVISION OF EARTH SCIENCES, GEOMORPHOLOGY AND LAND USE DYNAMICS PROGRAM. Workshop: Climate over Landscapes; Boulder, Colorado; September 19-21, 2007 \$73,570. PIs Gerard Roe, Joe Galewsky.

PCC seed grant. September '03 to August '04., \$26,000. Peaks, precipitation, and their co-evolution. Gerard Roe, Dale Durran, Bernard Hallet (PIs).

UW Royalty Research Fund, Aug '05 to Jul '06, \$18, 649. Patterns of precipitation in mountainous regions. Gerard Roe, Dale Durran (PIs).

NSF DIVISION OF ATMOSPHERIC SCIENCES, GEOMORPHOLOGY AND LAND USE DYNAMICS PROGRAM. Patterns of precipitation and their control on landscape dynamics Jan '07 to May'11, \$311,410. Pls Gerard Roe, Dale Durran, David Montgomery.

NSF DIVISION OF EARTH SCIENCES, PALEOCLIMATE PROGRAM. Dynamical Climate Reconstruction Using Paleoclimate Data and Ensemble State Estimation. May '09 to April '12. \$370,000. Pls Greg Hakim, David Battisti, Gerard Roe.

Current:

NSF DIVISION OF EARTH SCIENCES, PALEOCLIMATE PROGRAM. Paleoclimate Data Assimilation Jul '13 to June'16. \$422,000. PIs Greg Hakim, David Battisti, Gerard Roe, Eric Steig.

NSF DIVISION OF EARTH SCIENCES, CONTINENTAL DYNAMICS PROGRAM. Collaborative Research: Growth of the Tibetan Plateau and Eastern Asia Climate: Clues to Understanding the Hydrological Cycle. May '10 to Apr '15. \$650,000 (UW portion) PIs(UW) Gerard Roe, David Battisti.

Pending:

NSF DIVISION OF EARTH SCIENCES, GEOMORPHOLOGY AND LAND USE DYNAMICS PROGRAM. The long-term evolution of alpine glaciation and topography of the Patagonian Andes, \$313,492 (UW portion)

SERVICE, HONORS AND AWARDS

ESS excellence in teaching award, 2012.

Distinguished Public Lecturer, Cooperative Institute for Research in Environmental Sciences. October '08.

Flint Visiting Professor, Yale University, April to June, 2007

ESS teaching award, honorable mention, 2006, 2007.

UW distinguished mentor award, nomination 2009.

Carl-Gustav Rossby Award for 'Most Outstanding Thesis' submitted to the Program in Atmospheres, Oceans, and Climate, 1998-99.

Oxford University Exhibition, June 1990.

Associate Editor, Quaternary Research, 2004 to 2011.

Session organizer, IUGG Cryosphere, Davos, June 2013

Session organizer, Tectonic and Climates, Gordon Conference, June 2011

Session Co-chair: Orographic Precipitation and Landscapes, AGU Dec, 2009, 2011

Session organizer, Rapid Climate Change, Leverhulme Symposium, Cambridge

University, Royal Society, London, U.K, March, '08.

Organizer NSF workshop "Climate over Landscapes", Sept '07

UW SERVICE/COMMITTEES

ESS undergraduate advisor. Jun 06 to present;

ESS curriculum committee, 2011-present

ESS executive committee. 2013-2014

ESS MESSAGe review panel, 2014.

ESS computer committee (chair, 2007); ESS curriculum committee; ESS prelims exam committee Fall 04, 05, 06, 08; ESS graduate admissions Spr '05; ESS glaciology research faculty search committee, Fall '04; Seminar organizer (ESS, QRC, PCC). Co-chair Environmental Institute, 2009

UW Program on climate change: governing board Jan 03 to present; executive committee 2005 to 2010; director search committee, June 06; postdoc hiring committee, Sept '03; organizer summer retreat Sept'03.

UW Program on the Environment, member advisory board

UW College of the Environment, Institute committee, Co-Chair, 2010

Math and Science Field Committee to the Provost's Advisory Council on Teacher Preparation

CLASSES TAUGHT

ESS310: Mathematical methods in Earth Sciences, Spring, 2013, 2014 ESS/ATM/OCN586: Everything you always wanted to know about climate (but were afraid to ask), Fall 2012 ESS 414/514: Geophysics - fluids, Spring, 2012; Winter, 2013. ESS/ATM/OCN 589: Paleoclimate, Spring, 2011 ESS 201: The Earth system and climate, Winter, 2009, 2010 ESS exploration seminar Denmark and Greenland, August, 2008 ESS 590: Landscapes and Climate, Spring 2009

ENVIR 511 512: Graduate certificate in environmental management, City of Bellevue action plan for community greenhouse gas reduction, Winter, Spring 09

ESS 314: Geophysics: expedition to planet Earth, Winter 2004, Fall, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2013.

PCC/ATM/OCN/ESS 587: Climate dynamics, Fall 2003, 2004, 2005, 2006, 2007, 2008 ESS 416/516: Geophysics: the atmosphere, Spring 2003, 2004, 2005, 2006.

ESS 590: Special topics in climate: Heinrich events (seminar). Fall 2003, Winter,

Spring 2004. Centennial variability (seminar), Winter 2005; African aridity

(seminar), Winter, '06; The Holocene Express, Winter 2007.

ESS/ATM 590: Knowability and no ability in climate and earth sciences (seminar), Spring '06, '08, '09, Winter 2014

PCC 586: That sinking feeling: the thermohaline circulation (seminar). Spring, 2005. ESS 534/ATM 514: Ice and climate modeling, Winter 2001.

ESS 431: Principles of glaciology (5 lecture model ice dynamics), Fall 2003.

GRADUATE ADVISEES

Alison Anders (ESS, PhD, 2005, Assoc. Prof., U. Illinois)[!], Michael O'Neal (ESS, PhD, 2005, Assoc. Prof, U. Delaware)¹, Drew Stolar (ESS, PhD, 2006, GE, Connecticut)¹, Noah Finnegan (ESS, PhD, 2006, Asst. Prof., UCSC)¹, Summer Rupper (ESS, MSc, 2004; ESS, PhD, 2007, Assoc. Prof., BYU)*, Camille Li (ATM, PhD, 2007, Asst. Prof., U. Bergen)#, Kevin Rennert (ATM PhD 2007, Staffer, Energy Committee, US Senate)!, Kat Huybers (ESS, MSc 2007, PhD candidate)*, Jane Locke (ESS PhD 2008, Chevron)#, Jim Lutz (CFR PhD 2008, Scientist, CFR)#, Robert Sheerer (ESS, MSc 2008)#, Eric Buer (ESS, MSc 2008)#, Jennifer Adams (CivE PhD 2007) #, Justin Minder (ATM PhD , 2010, Asst. Prof. Suny Albany)*, Kevin Wood (ESS PhD, 2010, scientist PMEL), Sandra Penny (ATM PhD 2013, Lecturer, Bard College)*, Michelle Koutnik (ESS PhD 2010, Asst.. Prof UWash.)#, Rachel Headley (ESS, PhD 2011, Asst. Prof. UWisc Parkside)!, Erin Burke (ESS MSc, 2012, Oregon DoT)*, Nichole Feldl (At. Sci. PhD 2013, Postdoc, Caltech)*, Angela Pendergrass (PhD 2013, postdoc NCAR)*, Kyle Armour (Physics, PhD 2012, Postdoc MIT)[!], Brian Smoliak (At. Sci., PhD 2013, Postdoc UMinn.)[#], Nicholas Siler (At. Sci, PhD candidate)*, Nathan Steiger (At. Sci., PhD candidate)*, Xiaojuan Li (At. Sci., PhD candidate)*, Leif Anderson (UColorado, PhD candidate)!. *formal advisor or co-advisor, ¹major research advisor, [#]committee member (some research input)

INVITED SEMINARS, TALKS, AND COURSES:

2014:

Woods Hole, Massachusetts, Summer 2014. Woods Hole summer school in geophysical fluid dynamics.

Disko Island, Greenland, August 2014. Advanced climate dynamics summer course, lecturer

Columbia University, Feb 2014: Humpty Dumpty and regional climate predictability. Dept Applied Math Seminar, New York.

Massachusetts Institute of Technology, Lorenz Center, Feb 2014: Regional climate predictability from regional patterns of feedbacks. 1st Lorenz Center workshop, Endicott House, Cambridge Ma

University of Washington, Feb 2014: Humpty Dumpty and regional climate predictability. Dept. Atmospheric Sciences, Dept. Seminar, Seattle.

2013:

Massachusetts Institute of Technology, Cambridge, MA, Nov 2013: Humpty Dumpty and regional climate variability. MASS seminar series.

Massachusetts Institute of Technology, Cambridge, MA, Nov 2013: The natural variability of glaciers. Oceanography Seminar series

NSF Himalaya-Karakoram-Tibet Workshop, Tubingen, Germany, June 2013: The influence of Tibet on the climate of Asia.

2012:

American Geophysical Union Fall Meeting: The case for regional feedbacks, December, 2012

American Geophysical Union Fall Meeting: Knowability and no ability in climate projections, December, 2012

European Geophysical Union, April 2012: Glacier long profiles in regions of active uplift, and their role in orogen dynamics.

Kaplan Workshop on Environmental Geochemistry, March 2012: The climate of Asia and Tibet and its relationship to paleoclimate proxies. Ein Gedy, Israel.

Kaplan Workshop on Environmental Geochemistry, March 2012: The natural variability of glaciers. Ein Gedy, Israel.

- International Association of Cryospheric Sciences, What do glaciers tell is about climate variability and climate change? Melbourne, July 2011.
- **Camp Davis, Wyoming**: Short course on mountain ranges and climate, 6 lectures. August 2011.
- **Friday Harbor, Washington:** Short course on warm climates, 1 lecture. September, 2011.

2010:

- **Environmental Protection Agency**, Climate Damages Workshop, Washington D.C., Knowability and no ability in climate projections. Nov. 2010
- Graduate Climate Conference, Pack Forest, Oct. 2010, Keynote speaker
- Yale University, Directions in Crustal Geosciences Workshop: Geodynamics principles, not first principals are the principal route to progress, October, 2010
- **NSF Himalaya-Karakoram-Tibet Workshop**, San Francisco, June 2010: Climate over Asia and Tibet, not just a simple monsoon.
- American Institute for Chemical Engineers, First sustainability institute Seattle, May 2010: Climate change: certainties and uncertainties
- **Penn State University**, Earth Science department colloquium, March, 2009: Was there a little ice age?

- **Gilbert Club**, University of California at Berkeley, December 2009: The tectonic governor and the downsizing of the Alps.
- American Geophysical Union Fall Meeting, December 2009: The interpretation of Chinese Loess as a paleoclimate proxy.
- American Geophysical Union Fall Meeting, December 2009: Notes on a catastrophe: the descent into a snowball Earth.
- **Brown University**, Geology department colloquium, October 2009. Department colloquium. The shape of things to come: what are the potentials and potential limits to global climate predictions?
- **Brown University**, Geology department seminar, October 2009. Natural variability of glaciers in a constant climate.
- **University of Delaware**, Geography department colloquium, April, 2009. The shape of things to come: what are the potentials and potential limits to global climate predictions?

- **University of Delaware**, Geography department seminar, April, 2009. Was there a little ice age?
- Yale University, Dept. seminar, April, 2009: Extreme weather and the downsizing of the Alps.
- **University of Edinburgh**, School of Geosciences seminar, March 2009: Was there a little ice age?
- **University of Washington**, Seattle, WA, February, 2009: Dept. Atmospheric Sciences colloquium: What do glaciers tell us about climate variability and change?
- **California Institute of Technology**, Pasadena, CA, Environmental Science and Engineering colloquium January, 09: The shape of things to come: what are the limits to global climate predictions?

- **Cooperative Institute for Research in Environmental Science**, Distinguished Public Lecture, Boulder, Oct, 2008: The shape of things to come: what are the limits to global climate predictions?
- **University of Colorado**, Boulder, Oct, 2008: Dept. Geological Sciences colloquium: What do glaciers tell us about climate change?
- **University of Colorado**, Boulder, Oct, 2008: Dept. Geological Sciences seminar: The tectonic governor and the downsizing of the Alps.
- **University of Washington**, Seattle, WA, Oct, 2008: Dept. Earth and Space Sciences colloquium: The tectonic governor and the downsizing of the Alps.
- Stochastic Climate Modeling Workshop, Victoria, July 2008: Stochastic Ice.
- West coast climate initiative workshop, Univ. Southern California, LA, Jun, 2008: Decadal climate variability in the Pacific.
- **Environmental Protection Agency**, Washington D.C., April 2008: The shape of things to come: why is climate sensitivity so unpredictable (and who cares anyway?)
- **University of Michigan**, Dept. of Geological Sciences, April 2008: The tectonic governor: critical form and feedbacks in mountain-belt dynamics.
- **University of Michigan**, Dept. of Applied Math Colloquium, April 2008: Knowability and no ability in climate prediction.
- Yale University, Dept. seminar, February, 2008: Glaciers and climate: regional variability vs. change.
- **Massachusetts Institute of Technology**, Earth, Atmospheric, and Planetary Sciences Dept. Colloquium, February, 2008. The shape of things to come: why is climate sensitivity so unpredictable (and who cares anyway?).
- Harvard University, Dept. seminar, February, 2008: Glaciers and climate: regional variability vs. change.
- **University of California, Berkeley**, Dept. Colloquium, January, 2008: Why is climate sensitivity so unpredictable? Berkeley, CA.
- **American Mathematical Society**, Annual meeting, January, 2008: Why is climate sensitivity so unpredictable? San Diego, CA.

2007:

NASA CERES workshop. Victoria, B.C., November 2007: Why is climate sensitivity so unpredictable? Berkeley, CA.

- **University of Washington**, Program on Climate Change lecture series, October, 2007. "Glaciers and climate"
- **Brigham Young University**, Geology dept. seminar, October, 2007. "Why is climate sensitivity so unpredictable?"
- **University of Washington**, Atmospheric Science dept. colloquium, September, 2007. "Why is climate sensitivity so unpredictable?"
- Thun, Switzerland, June, 2007. Climate and surface processes workshop "Knowability and no ability in climate and surface processes"
- **Yale University**, Flint Visiting Professor, May 2007: "Mountain-belt dynamics: climate feedbacks and critical topographic form"
- **National university of Mexico**, Mexico City, May 2007: Colloquium: "Mountain-belt dynamics: climate feedbacks and critical topographic form"
- American Geophysical Union, Spring meeting, Acapulco, Mexico, May 2007 "On the interpretation of Chinese loess as a paleoclimate proxy".
- **Arizona State University**, School of Earth Sciences and Space exploration, department colloquium, March, 2007: "Mountain belt dynamics: climate feedbacks and critical topographic form"; research seminar: "Reconciling glacier changes and climate"
- Sanya, China NSF/CNSF workshop on Tibet and climate, January, 2007: "On the interpretation of Chinese loess as a paleoclimate proxy"

- **University of Edinburgh**, School of Geosciences, October, '06. "Reconciling glacier changes and climate"
- **University of Bergen**, Bjerknes Centre for Climate Research. Summer school on Multidecadal climate variability and teleconnection dynamics. Lecturer, Sept'06.
- **University of Colorado**, workshop on Milankovitch and climate, Jul, '06. What does 'Milankovitch and climate' really mean?
- **University of Edinburgh**, Earth Sciences department, Hutton Club lecture, June 2006, Rocks, rivers, and rain: feedbacks between climate, erosion and tectonics in mountain belt evolution. Department seminar, June 2006: In defense of Milankovitch.

University of Delaware, Geography department colloquium, April, 2006. In defense of Milankovitch.

2005:

- American Geophysical Union Fall Meeting, December, 2005: Rocks and rain: orographic precipitation and the form of mountain ranges. Roe, G H, Anders, A.M., Durran, D.R., Montgomery, DR., Hallet, B.
- Massachusetts Institute of Technology, Earth, Atmospheric, and Planetary Sciences. Oceanography seminar. March 2005. In defense of Milankovitch.
- **University of Washington, Earth and Space Sciences**, February, 2005. The drumbeat of tiny raindrops: exhumation, erosion, and the sculpting of mountain ranges.

2004:

University of Washington, Program on climate change Fall seminar series, November, 2004. Rocks, rivers, and rain: the interplay between climate, erosion, and tectonics.

- **University of Washington**, Department of Atmospheric Sciences Colloquium, October, 2004. In defense of Milankovitch.
- **Massachusetts Institute of Technology**, Earth, Atmospheric, and Planetary Sciences department colloquium, September, 2004. Rocks, rivers, and rain: the interplay between tectonics, erosion, and climate.
- International Geophysical Congress, August, 2004: Climatic and tectonic controls on orogen evolution.
- **University of Washington Quaternary Research center** seminar series, June 2004: Dust storms in Asia: at a loess for words.
- **European Geophysical Union**, Annual meeting, April, 2004: The mutual interaction between continental-scale ice sheets ad atmospheric stationary waves
- **University of Maryland**, Department of Meteorology colloquium, April, 2004: On the characterization of millennial-scale climate variability.
- National Center for Atmospheric Research, joint meeting of the climate variability and paleoclimate working groups, February, 2004: On the characterization of millennial-scale climate variability.

- **American Geophysical Union** Fall Meeting, December, 2003: On the characterization of millennial scale climate variability (with Eric Steig).
- Harvard University, Earth and Planetary Sciences department colloquium, November,
- **Massachusetts Institute of Technology,** Rocks, rivers, and rain: interactions between tectonics, climate, and erosion. Oceanography seminar, November, 2003: On the characterization of millennial-scale climate variability.
- **University of California Santa Cruz,** Earth Sciences department colloquium, May, 2003: Orographic precipitation and the form of mountain ranges. Department seminar: On the characterization of millennial-scale climate variability.
- **University of Washington,** Atmospheric Sciences department, Clouds and precipitation seminar. April, 2003: A simple model of orographic precipitation for use in landscape evolution.
- **University of Washington,** Earth and Space Sciences department colloquium, March, 2003: On the characterization of millennial-scale climate variability.
- **University of Washington**, Atmospheric Sciences department colloquium, February, On the characterization of millennial-scale climate variability (with Eric Steig).
- **University of Washington, Quaternary Research Center** Seminar, February, 2003: Rain-on-snow events impact soil temperatures and affect ungulate survival (with Jaakko Putkonen).

- **Yale University**, Geology and Geophysics department colloquium, November, 2002: The interaction between orographic precipitation and the form of mountain ranges
- Western Washington University, Geology department seminar, June, 2002: climate feedbacks on the evolution of mountain belts.
- **University of Washington**, Earth and Space Sciences, two department seminars, June, 2002: 1. Feedbacks between orographic precipitation and the form of mountain ranges. 2. Do we understand the physics of the ice ages?

University of Chicago, Geophysical Sciences department seminar, April, 2002: Feedbacks between orographic precipitation and the form of mountain ranges.

- **University of Colorado**, Institute for Arctic and Alpine Research, two department seminars 1.Feedbacks between orographic precipitation and the form of mountain ranges. 2. Do we understand the physics of the ice ages?
- **Purdue University**, Earth and Atmospheric Sciences department seminar, January, 2002: Feedbacks between orographic precipitation and the form of mountain ranges.
- **University of Alaska**, Fairbanks, March, 2002. Chapman lecturer. Short course ice sheet climate interactions: 1. Milankovitch forcing of ice age cycles 2. Climate -ice sheet interactions on ice age time scales.

2001:

- **Applied Physics Laboratory**, University of Washington, laboratory seminar. May, 2001. The mutual interaction between continental-scale ice sheets and atmospheric stationary waves.
- **California Institute of Technology**, Division of Geological and Planetary Sciences, department seminar, March, 2001: Climate feedbacks on the evolution of ice sheets and mountain ranges.
- **University of California at Berkeley**, Geography department seminar, February, 2001: Climate feedbacks on the evolution of ice sheets and mountain ranges.
- **University of Wisconsin at Madison**, Atmospheric Sciences department seminar, March, 2001: Climate feedbacks on the evolution of ice sheets and mountain ranges.

2000:

University of Washington, Atmospheric Science department, April, 2000: Let it snow: modeling precipitation over ice sheets: an assessment for Greenland.

1999:

- **University of Toronto**, Physics department seminar, April, 1999: The mutual interaction between continental-scale ice sheets and atmospheric stationary waves.
- **University of Chicago**, Geophysical Sciences department seminar, February, 1999: The mutual interaction between continental-scale ice sheets and atmospheric stationary waves.
- **University of Washington**, Quaternary Research Center seminar, February, 1999: The mutual interaction between continental-scale ice sheets and atmospheric stationary waves

Other conference presentations (partial list)
